CML 2024 ANNUAL CONFERENCE

The Popularity of Pickleball

Pickleball play has increased by **85.7%** year-over-year and by **158.6%** over three years.

The number of **new** pickleball participants in 2022 exceeded the total number of pickleball participants in 2021.

"The loudest sound produced hundreds of times during a Pickleball match - two to four millisecond 'impulse sound' generated when a paddle connects with a ball - peaks at **85 decibels** from a backyard more than 50 feet away."

Solution Approaches: Nuisance vs. Land Use Regulation

- Private Nuisance
- Public Nuisance
- Zoning
- Focused Land Use Regulation

Solution Considerations: Nuisance vs. Land Use Regulation

Key = Nature of the Problem

- Highly Popular Activity
- Conflict In Some – Not All Circumstances
- Location, Number of Courts, Operation Hours
- Third Parties Use of Court – Not Owner
- Not a Consistent “Nuisance”

Centennial's Approach

Focused Land Use Regulation

What We Knew

- Pickleball is Popular
- Court Conversions & Construction is *Imminent*
- Nationally Proven Conflict for Residential Uses
- Complete Ban Would be Difficult
- No Comprehensive Regulatory Examples

What We Did NOT Know

- The “Nature and Extent” of Pickleball Noise
- How to Measure Pickleball Noise
- Types of Mitigation Methods & Opportunities
- Effectiveness of Mitigation Methods
- Number of Existing Pickleball Courts in City

Considerations

- Risk of New Pickleball Courts
- Reasonable Justification for Regulations
- Types of Courts to Address
- Balance of Stakeholder Interests
- Identifying Impacts of Greatest Concern
- Permit Program & Requirements
- How to Address *Pre-Existing* Courts

Risks of New Pickleball Courts

Pickleball Noise Impact Assessment and Abatement Planning

Pickleball NOISE is different...
But the SOUND is the same.

Measuring Sound

Measurement procedures based on the adjusted sound exposure level according to ANSI S12.9 (Quantities And Procedures For Description And Measurement Of Environmental Sound), Part 4 (Noise Assessment and Prediction of Long-Term Community Response)

Study Recommendation on Distance and Successful Noise Abatement

Distance of Outdoor Courts to Residential:

- 600' and beyond – noise abatement less likely
- 500'-600' - review is recommended
- Within 350' - most require noise abatement
- **Within 150' - requires extensive noise abatement**
- **Within 100' - not recommended**

"Pickleball Noise Impact Assessment and Abatement Planning" (Centennial, CO) - Lance Wills, PhD

Reasonable Justification for Regulations

Conclusions:

- Pickleball Noise is Special & Harmful
- Pickleball Noise can Be Measured
- **Noise Study** can Identify Site's Noise Impact
- Distancing = Best Practice to Mitigate
- Other Methods can Mitigate a Site's Noise

Types of Courts

Noise Standard

Pickleball Noise Standard. An Outdoor Pickleball Court, or any collection of adjacent Outdoor Pickleball Courts, shall not produce noise in excess of 47 decibels measured at the nearest adjacent property lines for properties zoned for residential use or used for residential purposes.

Measurement Standard

Averaging techniques such as **equivalent-continuous and maximum fast exponential time weighted sound pressure levels (LAeq and LAmax)** are **not permitted** for the Noise Impact Assessment.

Measurement procedures based on the adjusted sound exposure level according to **ANSI S12.9** (Quantities And Procedures For Description And Measurement Of Environmental Sound), Part 4 (Noise Assessment and Prediction of Long-Term Community Response) **shall be used** to assess the noise impact assessment of Pickleball.

Hours of Operation and Lighting

Hours of Operation. An Outdoor Pickleball Court shall only be made available for use and may **only be used for Pickleball between the hours of 8:00 a.m. and 8:00 p.m.** It is unlawful to allow the use of or to use an Outdoor Pickleball Court for Pickleball after 8:00 p.m.

Lighting. If the Outdoor Pickleball Court is illuminated pursuant to a City-approved application, **all illumination of the court shall be limited to the hours between 8:00 a.m. and 8:00 p.m.** It is unlawful to illuminate an Outdoor Pickleball Court after 8:00 p.m.

Variations

Variations. Requirements for the creation and operation of Outdoor Pickleball Courts **are not eligible** for variations...

Permitting Process

- **Permanent Court**

- Permit Application & Approval Required
- Pre-Submittal Meeting & Community Meeting
- Application Requirements
 - Site Plan
 - **Noise Impact Assessment**
 - Prove < 47 db at Residential Adjacent Property
 - Mitigation Methods (if Needed)

Permitting Process

- **Temporary Court**
 - NO Permit Required
 - Operational Requirements:
 - Temporary
 - <47 dB at Adjacent Residential Property Lines
 - 8:00 AM to 8:00 PM Operation Limits

Pre-Existing Permanent Courts

- Existing = Permanent & Before Date of Moratorium
- Found: Recreation Districts, HOAs, and Backyards
- Allow “**Limited Exception**” Application
 - Prove Existing
 - Granted Exception
 - Must Operate <47 dB
 - 8:00 AM – 8:00 PM Limitation
- Violation Risks Order to Cease Operation
- Following Order, Continued Operation Requires Full Permit
